BIOGRAPHY

404Error has been part Madrid's vibrant electronic music scene since the mid 90s. Devoted to strictly vinyl, he has previously spun styles from EBM to early trance, american house or british breakbeats. His musical proposition resides in the deeper side of techno: from deep to hypnotic to deep progressive, dubby and trippy techno, keeping the bpm's low and a mature, futuristic approach on long mixes, floaty textures and hard beats.
